

Would you be open to talking to me if I could put \$50,000 dollars extra in your pocket this year for doing what you are already doing?

exprealty.com

Thank heavens I was a part of eXp Realty when my life literally came crashing down around me.

On a blisteringly hot September afternoon in 2011, I made one of the most fateful decisions of my life when I decided to take my Mountain Bike for a spin on a 110 degree day. After about an hour of tooling around, I went sideways off a curb and flipped over my handlebars and landed squarely on my hip breaking off my femoral ball.

As a commission based salesman, who just bought a house and had a pregnant wife with our #2 son, needless to say, this was not a "best case scenario."

What transpired over the next 9 months was nothing short of a nightmare, as it took 6 Months to be able to put weight on my pinned hip and I wasn't even walking without a walker for about a year, but the saving grace to all of this was that I had put together a solid eXp Agent Network and was taking advantage of their Residual Income and Revenue Sharing Plan and was getting money shared back to me from my brokerage. It was enough to cover my monthly expenses and even pay some of the medical bills.

I NOW call my eXp Revenue Share and Retirement plan, my "Business Disaster Relief Fund." Because, if I was just a part of a 100% shop or some other company that didn't share back commissions with me, I don't know what would have happened to me and my family.

Thank you eXp!

- Brian Culhane, Realtor
eXp Realty

In addition to eXp having the Industries Most Aggressive Residual Income Plan. They have...
